

 **CORGHI**

SP 2300

**Universal
Multifunctional
Device!**

**Optimise tyre mounting and demounting
with Corgi SP 2300**

The SP2300 is a practical and functional Helper device specifically designed to make mounting and demounting operations quicker, more precise and safer.

•**SP2300 with roller**, consisting of three integrated operating units capable of working on all types of tyre - including ultra low profile and run flat tyres - and light alloy wheel rims.

SP 2300 with DISC

[illegible]

SP 2300 WITH ROLLER

TAPERED ROLLER. Facilitates demounting and mounting of first bead by keeping the bead within the rim well. **Facilitates demounting of second bead.**

The **LARGE DISC** lifts the tyre and detaches the lower bead.

ROTATING BEAD DEPRESSOR

Follows the tyre radially during mounting and demounting and depresses the bead with a roller or, in the case of the WDK version, a disc.

SP 2300 WITH DISC

VERSION with disc instead of roller.

Ensures safe action on the tyre. Approved procedures, such as WDK, require the use of a tyre lever disc.

RECOMMENDED ACCESSORIES

8-11100311

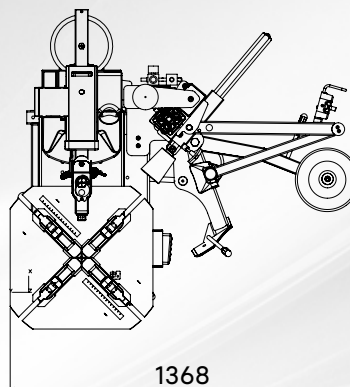

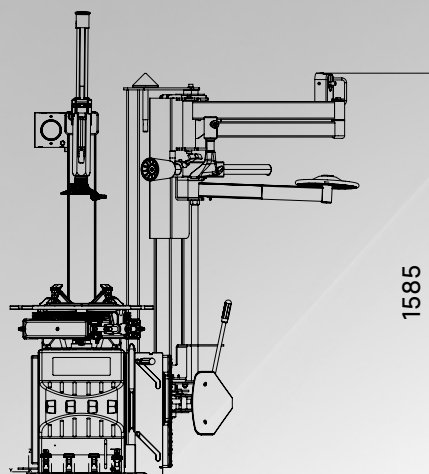

Rim cone kit for clamping the rim in a vice

8-11120100

Roller to disc conversion kit
